DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 7, 8 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lecoq, of record, for the reasons given in the previous action, hereby incorporated by reference. Applicants' remarks have been carefully considered, however, the rejection is maintained. The Lecoq reference teaches the use of the basic compound of LuYAlO_3 . Although this compound may be further doped with Ce impurities, the examiner considers this addition analogous to other articles of manufacture for perovskite materials which may, or may not be doped. Or, by way of example, a claim simply reciting a substrate of a particular material would be met by a reference showing a doped substrate of the same material.

Allowable Subject Matter

Claims 2-6, 9 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
